

# TIERRA DE VOLCANES

PUNA OF CATAMARCA

*Terrain Series*

## MERLOT

In our Andes mountain range, in the northwest corner of the province of Catamarca, there is the biggest concentration of the highest volcanoes in the world. Our vineyard parcels in these Lands of Volcanoes express the essence of their origin. Cold winds and wide thermal amplitudes make our identity.

### *Description*

It is an elegant and complex red wine with ruby hues, with a delicate nose, where aromas of red berries and soft notes of spices stand out, provided by the grapes from the Pascual Longo vineyard. The slight passage through oak provides soft notes of spices and vanilla. Medium-bodied on the palate, very balanced with its acidity. Very soft and round tannins are perceived that offer a long-lasting and pleasant finish.
